Of Storage Innovation

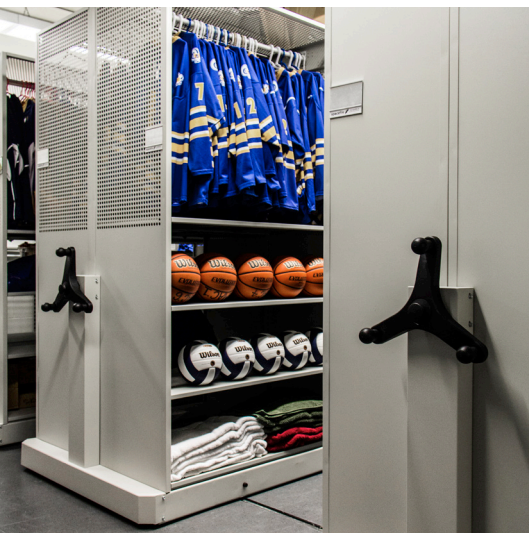

LT Shelving - Functional, Customizable and Adaptable

LT Shelving

LT Shelving is available in Stationary and Mobile configurations that may be integrated with any of Spacefile's mobile storage systems. You can make your system match your specific needs: choose from a comprehensive list of options:

- Mobile Options: manual assist, mechanical assist and powered
- Dividers: standard, magnetic and Case Style
- Drawers: to store paper, retains, samples, inventory, etc.
- Doors: hinged, Tambour, etc.
- Security: many locking options including Wait High and digital
- Reference Shelves: pull-out for ultimate convenience
- End Panels: standard, Laminate or Customized
- Label Holders: customize lists to indicate row contents

LT Shelving is robust, allowing you to store light items, as well as very heavy items, all within the same solution. LT Shelving showcases best-in-class design and manufacturing.

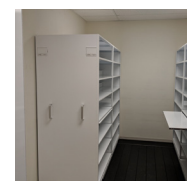

Shelving Solution:

Spacefile's LT Shelving allows for storage of files, binders, boxes, inventory, sports equipment and a variety of other materials.

About Spacefile

Spacefile International Corp. is a world leader in high-density storage, providing insights into how to successfully integrate mobile, static and customized modules into comprehensive storage solutions.

Our designs showcase ways to increase storage up to four-fold, with North American built products of uncompromising quality, attention to detail and best-in-class value. We are a North American-based manufacturer located in Toronto, with extensive experience in retail, corporate, library, museum, healthcare, government, industrial, and athletic applications.
