The Problem

Guelph City Hall had outgrown its exiting space, and was moving to a new City Hall. The City of Guelph required a system that was ADA compliant.

The Solution

Spacefile's low profile 3-piece track features an ADA compliant slope of 1:12 to ensure complete accessibility to all users. Spacefile designed the system to meet all accessibility requirements including turning radius, low profile track, and operating mechanisms. The system incorporated shelving from Spacefile as well as existing shelving.

Guelph City Hall

Contact Spacefile for a customized high density storage solution today.

About Spacefile:

Spacefile International Corp. is a leading North American manufacturer of High Density Storage Solutions. For over 40 years, we have offered storage solutions to a wide range of markets including commercial, health care, government, education, institutional, retail and many other custom applications. As Spacefile continues to grow, so do our product offerings. Contact Spacefile to maximize your storage capacity and utilize space more efficiently.

Why Spacefile:

Spacefile offers a complete finished solution for all your storage needs. From consultation to the installation, the Spacefile team is all you need.

Our expert design team is available to work closely with you to develop a system for your space and needs. Our design software can provide you with accurate high definition 2D and 3D rendering capabilities and the exact number of storage inches. Our pricing is presented in a simple comprehensive format with delivery and installation included.
