

PROJECT SUMMARY

CLIENT
University Health
Network -
Toronto General

INDUSTRY
Health Care

STORING
Files

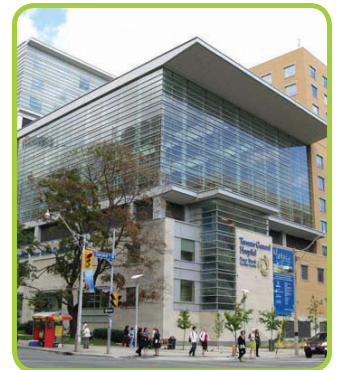

The Problem

University Health Network Toronto General Hospital required storage that fit into existing alcoves while increasing storage capacity. Additional storage was also required to conquer messy, inefficient filing.

The Solution

Spacefile designed multiple systems to fit into the current alcoves. The storage units utilized HIPPA compliant locking mechanisms to ensure complete security of patient files. A new look was developed for the reception area to allow for more organized, efficient storage.

Toronto General

Contact Spacefile for a customized high density storage solution today.

About Spacefile:

Spacefile International Corp. is a leading North American manufacturer of High Density Storage Solutions. For over 40 years, we have offered storage solutions to a wide range of markets including commercial, health care, government, education, institutional, retail and many other custom applications. As Spacefile continues to grow, so do our product offerings. Contact Spacefile to maximize your storage capacity and utilize space more efficiently.

Why Spacefile:

Spacefile offers a complete finished solution for all your storage needs. From consultation to the installation, the Spacefile team is all you need.

Our expert design team is available to work closely with you to develop a system for your space and needs. Our design software can provide you with accurate high definition 2D and 3D rendering capabilities and the exact number of storage inches. Our pricing is presented in a simple comprehensive format with delivery and installation included.
